Education

Georgia Tech / M.S. H.C.I.

2019–2021

College of Computing Dean's List
Distinguished Masters Student

UGA / B.B.A. Marketing B.S. Psychology

Achievements

Figma Community / Active Contributor

Over 1000+ uses of my Figma
Community Resources

Design Educator / Active Speaker

Speaker at World Information Architecture
Day in Atlanta, GA, the Code for America
conference in D.C., and the Software Factory
Conference in Austin, TX.

Experienced Designer / Active Designer

I have worked on over 20 applications.
Everything from the Jamba Juice mobile app
to AI tools to Brain Computer Interfaces.

Skills & Hobbies

Skills

A/B Testing · Brainstorming · Data analysis
Design Systems · Detail oriented · Figma
Mock ups · Motion Design · Rapid Prototyping
Sketch · Strategic thinking · User flows ·
User testing · Visual Design · Wireframes

Hobbies

Dance
Gardening
Endurance Running
Illustration
Sailing
Travel

Experience

Apple / UX Designer

JUNE 2025 – OCT 2025

Led application-wide **design consistency** initiative, unifying visuals, interaction patterns, and UX behaviors across the Insight platform. Designed **Marketplace experience** improving usability, discoverability, and **AI-driven workflows** for manufacturing analytical tools.

CTRL + Y / Lead Product Designer

OCT 2024 – MAY 2025

As co-founder and lead product designer for CTRLY's Bishop, I designed an **AI-driven search and rescue** app that detects humans in drone footage up to **3,700× faster** than manual methods. I led Figma **prototyping, user flow mapping, and UI design**

VMware by Broadcom / Senior Product Designer

SEP 2022 – April 2025

Led UX design for Tanzu client applications with a focus in **data visualization**. Facilitated workshops and created **high-fidelity prototypes and mockups** to validate concepts, align stakeholders, and accelerate delivery of **user-centered** solutions.

Google / UX designer

JAN 2021 – MAY 2021

Led design for the **Google CodeDesign** (component based prototyping tool) asset marketplace. Led a 3-day Google Design Sprint, delivering **wireframes, mockups, and a user-centered design** based on insights from testing and design reviews.

Kessel Run / Product Designer

JUNE 2020 – SEP 2022

Designed a mission planning application with a timeline-style interface used in high-stakes scenarios such as the evacuation of 122,000+ refugees from Kabul and the Haiti Earthquake relief.

Developed **user flows, mockups, and prototypes** based on deep user research and pain point analysis, driving **consistency across connected systems**.

LEO: Mental Health AI tool / Lead UX Designer

January 2020–May 2021

Spearheaded research and design for an app to **improve mental health in first responders**, conducting usability studies, co-designs, and user testing to develop an **AI voice chat application**.
